

bar & restaurant

tschüüüsch!

futurefood ♥ inspired by indian cuisine
solidrinks ★ for a borderless world

* In addition to the old prices, there are also new prices (on curries, salads and dal // drinks and desserts are not affected). On the new prices, you can optionally get the "2€ tschüüüschRABATT" per dish during the payment process and thus decide which price you are willing to pay. The discount is not available for deliveries.

Everyone should feel free to take the "2€ tschüüüschRABATT" during the payment process. In a test phase, we hope that as many people as possible will be willing to pay the new prices. The more people who do so, the more possible it is that we will be able to keep these 2 price categories. The drastically increased costs force us to take this step, which is essential for the continuation of this "Kiez restaurant".
